

INSURANCE POLICY FOR SOUTH AFRICA

In consideration of the volatility of the South African Rand to both the United States Dollar and Euro, the insurance procedures for South African Customers will differ from the rest of the world under the following terms:

If a customer in South Africa insures their device for 25% of the Current Retail Price then the Budapest Home Office will honour that amount to replace a SCIO/EDUCTOR **box only** with a copy of your insurance contract (or direct correspondence with the insurance company), a police report (or similar authority) and a photocopy of your passport to cover that 25% of the Current Retail Price.

This is for a SCIO/EDUCTOR device only and only applicable to South African citizens living in South Africa when their device was stolen from South Africa. If a South African Citizen travelling abroad loses his/her device **outside of South Africa**, then the replacement cost is 50% of the Current Retail price of the device.

If there are any questions, please feel free to contact your Sales Representative.
