

## TRANSFER POLICY OF THE SCIO SERIAL

A transfer of ownership is when an individual decides to privately sell their used device.

**IMPORTANT NOTE:** SCIO SERIALs that were upgraded to SCIO USBs need to be returned to the Budapest Home Office. They are **not** eligible for transfer of ownership.

**ANOTHER IMPORTANT NOTE:** SCIO Serial devices were manufactured between November 2004 and November 2005, therefore there are no current worldwide valid registrations or licenses for the SCIO Serial devices.

To transfer ownership of a SCIO SERIAL Biofeedback Device, it is helpful to follow these steps.

- The Buyer and the Seller need to agree on their own sale price. Once a price is agreed, the Buyer and Seller need to transfer ownership of the SCIO SERIAL device, software disks, head harness, and limb harness. Money and device transfer is the responsibility of the Buyer and Seller.

The Buyer and Seller should follow these steps to ensure that the transfer is registered with Budapest Home Office, the device database is updated so that the device can be used by the Buyer and for future service, including technical support.

**Customer who would like to transfer the ownership (Seller) please contact [info@scio-educator.com](mailto:info@scio-educator.com)**

**Customer who receives the transfer of ownership (Buyer) confirm with [info@scio-educator.com](mailto:info@scio-educator.com)**
